Sir:

Responsive to the Office Action mailed on August 8, 2002, please amend the above-identified application as follows:

**In the Specification:**

Please amend the specification as follows:

Please replace the paragraph starting on page 7, line 1 and ending at page 7, line 6 with the following paragraph:

--The exchange 304 and router 306 are typically situated locally with respect to the telephone 302 and the exchange 312 and router 310 are situated locally with respect to the telephone device 314. But the telephone 302, the exchange 304 and the router 306 are located remotely to the router 310, the exchange 312 and the telephone device 314. While not shown in Fig. 3, it could be understood by those skilled in the art that the exchanges 304 and 312 are typically coupled to many telephone devices.—

Please replace the paragraph starting on page 8, at line 24 and ending at page 9, line 2 with the following paragraph:

--The packet rate is proportional to the size of the packet (the higher the bit-rate, the higher the packet size). The packet size after compression is a function of the sophistication
